

Corporate Leadership in Education Presentation

PEARSON DIGITAL LEARNING

Chenai Okamnor, Vice President - National Accounts

Falor Room

PREPARING TO WIN THE BILLIONS OF DOLLARS AVAILABLE IN GRANT FUNDING

This session will equip you to prepare winning applications that will help you to:

- Increase student academic achievement significantly for all groups of students
- Improve: graduation rates, high-quality teachers and school leaders
- Close the achievement gaps between groups of students
- Exhibit evidence of partnerships with the private sector with effective tools and proven success in K-12 schools

The keys to making a difference with: **Waterford, SuccessMaker, NovaNet, and ELLis**

NABSE/myChinese360 Mandarin Chinese Initiative

Steven Niederman, Sr. Vice President

Bondi Room

The NABSE/myChinese360 Mandarin Chinese Initiative: **Increasing Minority Participation in the Global Community** China is the fastest growing economy in the world. Minority students must have the same opportunity to participate in the global community. This important session will describe the **NABSE/myChinese360 Mandarin Initiative**, designed to increase minority participation in Chinese, one of the most important languages in the world today. You will learn how to set up a Chinese learning initiative in your district, and see a live presentation direct from China. Participating students will be eligible to study in China. Administrators may also be eligible to participate in the College Board China education symposium

AdvancePath Academics, Inc.

Michael Walker, Director of Business Development

Compagno Room

From Dropout to College Enrollment – Recovering and Re-engaging Disenfranchised Students

Michael Walker will discuss the day-to-day operating procedures that enable AdvancePath Academies to recover at-risk and dropout students and achieve a 91% success rate. Working with primarily disadvantaged and disengaged students in a number of districts in California and Maryland, AdvancePath Academies operates as “school within a school”, in partnership with host school district. This innovative partnership approach has helped over 600 students graduate over the last three years with more on schedule to graduate in the coming year. You will not want to miss this exciting discussion on how to build and maintain a “learning culture” that will re-attract and retain dropouts, provide meaningful intervention for at-risk students, and graduate all of these students with the necessary preparation for college enrollment and life!
