

JAMIE FOXX PRESENTS THUNDERSOUL

The True Story of Conrad Johnson & The Kashmere Stage Band

Dear CAAASA Member,

We invite you to support a film we're sure will be near and dear to your heart.

Presented by Oscar®-winner and arts education advocate, Jamie Foxx, **THUNDER SOUL** is the story of Houston's Kashmere High School's Stage Band – a funk powerhouse that traveled the world in the 1970s – and their leader, Conrad "Prof" Johnson – an educator, mentor, and musical genius – who reunite for one show 35 years later. The result is a funny, heart-warming, and deeply inspiring story-with one of the funkiest soundtracks since the 70s!

THUNDER SOUL is a rare gem. It's a "must see" experience for all ages because it poignantly shows how one person can make a positive difference in the lives of others. Through the power music education, Prof was able to change the lives of hundreds of students, uplift a community, and leave a legacy that is inspiring a new generation.

Come out and support **THUNDER SOUL** and the power of arts education.

THUNDER SOUL opens in select cities on September 23rd and expands to California and the nation on October 7th
